PROFESSIONAL SUMMARY

Entry-level Data Analyst candidate with a Bachelor of Engineering in Information Technology and hands-on practice in SQL-based business analysis, Google Sheets visualization, Python, and introductory machine learning. Experienced through learning projects in analyzing customer orders, revenue, product performance, and trends. Seeking a fresher Data Analyst / Junior Data Analyst opportunity

TECHNICAL SKILLS

Data Analysis: Data cleaning fundamentals, exploratory analysis, KPI analysis, trend analysis, business insights
SQL: SELECT, filtering, JOINs, GROUP BY, HAVING, aggregate functions, subqueries, COUNT DISTINCT, date functions
Tools: Google Sheets, Microsoft Excel, Power BI, Git/GitHub, VS Code
Python / ML: Python, scikit-learn basics, Decision Tree Classifier, TF-IDF, cosine similarity
Programming: Python, SQL, HTML, CSS

PROJECTS

Online Food Delivery Analysis | SQL, Google Sheets

- Analyzed food delivery orders to explore city-wise order volumes, revenue by food item, restaurant performance, customer spending, and monthly trends.
- Practiced JOINs, subqueries, GROUP BY, HAVING, SUM, COUNT DISTINCT, and date functions to answer business questions.
- Created Google Sheets charts for revenue by city, customer distribution, popular food items, and monthly order trends.
- Project findings included Jaipur as a leading city by orders and revenue, with demand differences across food items and locations.

Product Recommendation System | Python, TF-IDF, Cosine Similarity

- Used the MovieLens 100K dataset to explore user ratings and item popularity.
- Implemented collaborative filtering using cosine similarity and content-based recommendations using TF-IDF.
- Built a workflow to recommend items from user input and export recommendation results to CSV.

Education

Anuradha Engineering College 2022 - 2025

Bachelor of Engineering in Information Technology *chikhli, Buldhana,Maharashtra*

CGPA – 7.5

Government Polytechnic, Murtizapur 2019 - 2022

Information Technology *Murtizapur, Akola, Maharashtra*

Percentage - 72.56

SSC - 75.20

CERTIFICATIONS & LEARNING

• SQL Project Challenge — DataPencil | Issued June 2026
• Complete 2026 Python Bootcamp: Learn Python from Scratch — CodeWithHarry | Issued May 2026
• Data Science & Machine Learning Fundamentals — HCL GUVI | Issued May 2026
• Power BI Micro Course — SkillCourse | Issued January 2026
• Artificial Intelligence & Machine Learning — Seventh Sense Talent Solutions | October 2024
• Participated in an AI & ML workshop and attended a Power BI workshop at Officemaster.
